

## Section 1000: Community/Educational Agency Relations

### Principles and Objectives for Community Relations

File: 1001.00

Successful education programs require the support of the school district community. The board addresses the importance of the role of the school district community in the school district in this series of the policy manual. The board recognizes this support is dependent on the school district community's understanding of participation in the efforts, goals, problems and programs of the school district.

The board of education believes that an informed and actively involved public will be more supportive of school purposes and programs. To that end, the superintendent is directed, through his personal action and through the delegation of his authority, to encourage patron attendance at all public meetings of the board of education, student events, and other school programs, utilizing in a timely manner the local media and school newsletters, calendars, and mailed announcements.
