

Section 1000: Community/Educational Agency Relations

Education Agency Relations

File: 1007.00

Relations with Activities Associations and Athletic Conferences

The board supports the concept of membership for this school district in associations which will enable our school to benefit from cooperative development and supervision of our educational program.

The board, in entering into any such membership, recognizes and agrees that any administrative or legal action contemplated by the board in the name of the schools must conform to the published policies, rules and regulations of any such association.

If conflict between the policies, rules and regulations of this school district and those of any association in which this district maintains membership should arise, the board reserves the right to decide whether its policies, rules and regulations should be placed in harmony with those of the association, or the membership should be terminated.

Police and Fire Departments

The administration shall insure that a cooperative effort is maintained between the officials of the school district and law enforcement agencies. It is paramount that the rights of the school, the home, the civil authorities, and the individual are clearly understood and protected.

Educational programs designed to make the youth of our schools sensitive to the need for and the practice of good safety habits may be sponsored jointly by the school district and the fire department. The school staff and administrators are urged to cooperate with personnel of the fire department and law enforcement in every possible way.

Health Departments

The Holt County School District No. 7 shall cooperate with health agencies in developing procedures for the control of communicable diseases in the school. All procedures shall conform to the regulations for the communicable disease control set up by the state health department.

It shall be the responsibilities of the principal and school nurse to assist in meeting the provisions of the health department concerning communicable and contagious diseases by promptly reporting to the superintendent of schools the presence of any such disease. Re-entry of students diagnosed as having been infected with a communicable disease will be allowed only upon the recommendation of a licensed medical authority, and the school will reserve the right to seek independent medical advice on such situations.

The school district will participate in school immunization clinics if approved, recommended, and directed by county or state health agencies.

County and Intermediate Units

The Holt County School District No. 7 may participate in the services offered by Educational Service Unit No. 8 and/or other regional agencies if the services meet the educational needs of the students in the district.
